### City Development Plan

### नगर विकास योजना

Bhishag Singh Chaudhary, Chief Minister, Government of Madhya Pradesh  
Bhalchandra Chaudhary, Minister, Urban Administration & Development Department, Bhopal (M.P.)

Madhya Pradesh is urbanising at a fast rate and the Urban Local Bodies of the State are facing the challenge of meeting the requirements of the growing population with limited technical and financial resources. GoI as well as GoMP have initiated a number of programs to meet the growing demands of infrastructure and service delivery. The GoI schemes : Urban Infrastructure Development Scheme for Small and Medium Towns (UIDSSMT) and Integrated Housing and Slum Development Programme (IHSDP), the GoMP initiated DFID funded MPUSP etc. link reforms with investment in infrastructure.

After the assessment of the performance of the ULBs and their capacity for exploiting the above-said resources it was felt that a development plan is essential, not only for accessing GoI/GoMP funding but also for providing a strategic framework for converging and co-ordinating various development inputs towards positioning the city on a development path.

**CDP exercise**  
The aim of this exercise is to support various Cities/Urban Local Bodies of Madhya Pradesh in preparing the City Development Plan (CDP) for their respective cities. The CDP should provide a comprehensive medium term strategy (Vision 2035) as well as a City Investment Plan (CIP), based on which the concerned ULB will be able to access funds under GoI/GoMP schemes as well as from own and other sources based on priority actions and projects identified in the CDP.

document would also provide Financial Operating Plan (FOP) to direct the ULBs for mobilising various financial resources to implement the identified projects.

#### CDP highlights :

Preparation of the CDP consist of city development strategies that come out of a structured consultative process.

The process will enable elected representatives, key staff of MC departments, parastatal agencies and other institutions, policy makers and the citizens to participate and plan for spatial, social and economic development of the concern cities.

A City Development Plan (CDP) will present both a vision of a desired future perspective for the city and the ULB's strategic framework of sectoral plans translated into actions that define on how the ULB, together with other stakeholders, intends to work towards achieving their long-term vision in the next five years.
